8a. Sound

Q13. If you consider the Plan Strategy to be sound and wish to support the Plan Strategy, please set out your comments below:

Reasons for support:

We have an interest in Belfast as our regional city to be a place where people want to live, work and do business.

We own a number of landmark commercial properties in the heart of the city centre which we wish to sympathetically restore and enhance. We believe the spirit of this plan allows us to do this by stating that it will grant planning permission for office developments in the city centre.

We also recently brought a cruise ship of scale into Belfast for the very first time for a refit and we see significant future potential here. We therefore, are interested in the continued investment in the waterfront area with the port offering a strategic marine transport hub for this island.

We believe that the four key areas of focus shaping a liveable place; creating a vibrant economy; building a smart connected and resilient place and promoting a green and active place and sound building blocks for shaping the future of the city.
